SULPHUR FALLS BEFORE ONRUSH OF LOCAL HIGH

Ada Gridsters Grab Victory
From Visitors, 17-0 in
Opening Game.

FUMBLING EXPENSIVE

Cunning's Good Toe Work
Opens Scoring and Line
Bucks Are Fierce.

From the kick-off until Ada back field men plunged into the Sulphur line in the last few seconds of the final quarter, Ada high school gridsters named their own game and played it high over the head of Sulphur high school in the opening battle of the season at home Friday afternoon for a victory of 17-0.

One field goal, a touchdown, and a touchback spelled defeat for the visitors.

Ada snapped into the game at the off set and on receiving Sulphur's kick off, carried it to within one yard of the goal line by a series of passes, end runs and line plunges. Losing the ball on a fumble near the goal line, the boys tried for a field goal. Cunning's heavy boot pushed the sphere over the posts from the 15 yard line, netting three points.

Playing after this became more interesting and the two teams began a stubborn battle in which Ada was superior. Having carried it within 15 yards of the goal in the same quarter, Cunning put a good pass to Potts who had a clear field before him with only three yards to go. Ada kicked goal and at the end of the first quarter the score stood 10 to 0.

Second Uneventful.
The second quarter was uneventful so far as scoring is concerned but Ada maintained the advantage, managing to keep the ball for the most part in Sulphur territory. Playing was tried only on three lines, passes, line plunges and end runs. Ada was successful in making most of her gains in this manner, while several good gains were made by fourth down kicks with little return by the visitors. At the end of the first half the ball was on the 20 yard line and in Ada's hands. Score Ada 10, Sulphur 0.

The third quarter was a mild sensation. Ada kicked, Sulphur made a slight return, and then a series of hard line plays by both teams followed. Ada, through the aid of Carr, Cunning, King and Rayburn, put the ball within 12 yards of the goal line. Cunning was then sent through the line for eight yards, putting it within four yards of the goal.

With a touchdown almost certain, the boys again formed for a center rush, but fumbled and allowed the ball to be carried back to the 15 yard line. An Ada man covered the ball, however, and with one down left, the locals kicked. The ball was blocked by a Sulphur player within three yards of the goal line in the northeast corner of the field. With their only hope a good kick, Sulphur back field men grimly attempted to put their team out of danger. The terrific plunge by the entire Ada squad, however, was too much and the ball was again blocked. McCoy, midge Ad a quarter back, fell on the ball over the goal line for the second touchdown. The third quarter ended with the score 17 to 0.

Fumbles Are Costly.
The last quarter was a series of plays, fumbles, penalties and passes. Rayburn, Ada left end, came to the front in this quarter and capped his stellar playing which he had exhibited in the first half by getting several difficult passes and tackles. At the end of the game Sulphur was coming out of her slump of the third quarter and was playing for the first time in Ada territory. End of game, Ada 17, Sulphur 0.

The line-up:
Ada—Burk and Willoughby, guards; King and Krieger, tackles; Rayburn and Gregg, ends; Potts and Nettles, halves; Captain Cunningham, fullback; McCoy, quarter.

Sulphur—F. Dinkens and Selby, ends; Leonard and Ryan, tackles; Scott and Arms, guards; J. Wright, center; Ury, quarterback; H. Wright and Glick, halves; and W. Dinkens, fullback.

Officials of the game were E. C. Wilson, referee, and W. K. Newcomb, umpire.

"IN JAIL TO SATISFY COAL BARONS," HOWAT SAYS

(By the Associated Press)
TOPEKA, Kan., Oct. 1.—"We are now in jail to satisfy the coal barons and the political aspirations of Gov. Allen and the judges," was the response of Alexander Howat and associates in response to a telegram of sympathy from the Mine Workers Union.

Local Minister to Discuss "Irish Issue" Here Sunday

DR. N. P. PATTERSON

Big crowds were predicted Saturday afternoon by local lodge committees at work on arrangements, for the address to be given Sunday afternoon at 2:30 at the McSwain theater by Rev. N. P. Patterson, pastor of the Presbyterian church, on the "Irish Situation."

Dr. Patterson, who spent three months in Ulster, Ireland, this summer lecturing under the auspices of the Ulster Temperance Commission, made a close study of the situation and told last Sunday night some of the results of his investigation into the "real Irish issue."

Telephone messages to Ada today said delegations from Stonehill, Roff, Francis and possibly Allen would attend the lecture. A committee appointed by the lodges which

GRANDDAUGHTER OF LOCAL CIVIL WAR VET NAMED

Because of Dr. N. P. Patterson's lecture tomorrow afternoon, the regular monthly meeting of the local camp of United Confederate veterans has been postponed until Sunday afternoon, October 9, at 2:30, according to a notice authorized this morning by Capt. A. M. Crow, camp commander.

At that time reports of the state convention at Tulsa together with other important business will come up. The camp will turn out practically in a body for the address at the McSwain theatre. Confederate veterans announced Saturday morning.

Definite announcement of train service for the national convention of the U. C. V. to be held at Chattanooga, Tenn. October 25, 26 and 27 was received in Ada Saturday by Capt. Sam Hargis from Gen. Theodore F. Brewer, McAlester, state commander. The train carrying the Oklahoma delegation will leave Holdenville at midnight on October 23. Ada veterans will entrain there. It has not been decided how many of the local camp will attend the national convention but Captain Hargis said today he was sure to go. Miss Jacques Jackson, of Ardmore, a grand-daughter of Captain Hargis, has been appointed sponsor for the Chickasaw, or state, brigade of the U. C. V., and will attend the Chattanooga meeting as such. General Brewer has notified the local camp.

TULSA NOW HAS HOPE OF GETTING CLEAR WATER

TULSA, Oct. 1.—Clear water came a step nearer to Tulsa this week when the water board confirmed appointment of two nationally known engineers who are to make an examination of Shell Creek water project with a view to a temporary source of supply, until the Spavinaw project can be completed.

George Earl of New Orleans was appointed by the water board to serve on this committee, while the local merchants appointed Col. Edward Bartow of the University of Iowa. It is probable that these two engineers may appoint a third member of their board.

It is variously estimated that it will take from three to four years to get Spavinaw water into Tulsa water mains. Meanwhile, the question of whether or not it is wise to obtain a temporary source of supply, has to be fought out. The Arkansas river water is declared unfit for drinking purposes because of the salt which it contains.

solicited Dr. Patterson to deliver the lecture will have charge of all details, including ushering, connecting with the lecture. No admission will be charged and all other meetings for tomorrow afternoon have been cancelled to allow an attendance of their membership.

Patterson was heralded in Ulster as one of the foremost American speakers on the cause of temperance and high praise was sounded by the Ulster press for his work this summer. His tour carried him into direct contact with the people of both Ulster and South Ireland, dominated by the Sinn Fein party and his address Sunday is expected to deal with fundamentals underlying the Irish disturbance.

TULSANS CLASH WITH ADA TEAM THIS AFTERNOON

King football will resume his theme at the University of Tulsa again today after a year's vacation when the former Kendall College gridiron warriors meet the East Central Normal squad in the first game for both teams this season.

Coach M. Z. Thompson took both his first and second string men to Wetumka Friday and the second team took defeat at the hands of the high school 14 to 0. Thirty men from the Normal were included in the aggregation and Coach Thompson proceeded to Tulsa last night with 17 men for the fray this afternoon that will test his team's mettle.

Although the Tulsa University team has not been in action this fall, it is understood from reports issued from Schmidt's camp this morning that it is up to usual strength and determined to administer defeat to the Ada gridsters in the opening bout of the season.

NEW BEACON IS SEEN 140 MILES OUT AT SEA

(By the Associated Press)
NEW YORK, Oct. 1.—The new high power search light tested last night is declared to have developed 1,400,000 candle power. Its beams were seen 140 miles out at sea and shot its rays to a height of 30 miles, according to the manufacturers. It is intended to be used as a beacon for light houses and will aid to an immeasurable degree aviators flying at night.

Prof. R. R. Robinson of the Normal was in Francis conducting an extension class of the Normal Thursday night. The Normal is conducting classes over the district this year, thereby making the influence felt in ever nook and corner even more directly than in the past.

\$60,000,000 BUILDINGS START IN CHICAGO SOON

(By the Associated Press)
CHICAGO, Oct. 1.—It is believed today that work on \$60,000,000 worth of buildings will be under way by the beginning of the year as a result of the Chicago Building Trade's confirming the wage decision of Judge K. M. Landis, arbiter.

PAWHUSKA.—The women democrats of Osage county are to meet October 7 in Pawhuska to complete a permanent organization.

N. B. Haney was in Shawnee on Business Friday. He made the trip overland.

FIGHT ON LATE TAX PROVISION IS MADE TODAY

Democrats Center Assault
On Republican Plans for
Getting Revenue.

FAVORS CORPORATION

Smoot Presents Scheme for
Three Per Cent Manu-
facturer's Tax.

(By the Associated Press)
WASHINGTON, Oct. 1.—Opening a general assault on the Republican tax bill, Senator Simmons of North Carolina, ranking democrat on the finance committee, charged today in the senate that the revisions proposed by that committee were solely in behalf of the corporations and those taxpayers whose business incomes exceeded \$66,000 a year.

Senator Simmons said that immediately after the armistice the tax laws were revised and reductions made in the taxes on individual incomes and corporations. Now, he added, it was proposed to make a further cut of one-half in the amounts paid by corporations, while the millions of people who pay the miscellaneous taxes are at this very hour paying the peak war taxation rates.

Before the North Carolina senator began his address, Senator Smoot of Utah, a member of the finance committee, presented his plan for a manufacturer's sales tax of 3 percent, explaining it in a prepared statement which he read to the senate.

The senator explained that this would be in substitution for "all the taxes, capital stock tax, transportation tax, and all of the 57 varieties."

Is Non-Cumulative
"It should be noted," said Senator Smoot, "that as the tax is imposed only when articles are sold for consumption or use without further process of manufacture, no tax will be accumulative in effect and will give the integrated business no advantage over the disintegrated business. There will be but one tax. If a commodity is sold for consumption or use in a further process of manufacture, no tax will be imposed. For example, crude oil sold for fuel would be taxable, but if sold to a refinery for the making of gasoline or like commodities it would not be taxable."

"In order to avoid administrative difficulties with small sales the bill provides for an exemption of all sales of less than \$5,000 during the year. This will exclude about one percent of the manufactured goods in the country, according to the census of manufacturers. It will practically exempt all the agricultural products.

"Provision is made for a like tax upon similar imported commodities so that there can be no discrimination against American products."

LEDOUX LOCATES JOBS FOR FIFTY ON DAKOTA FARM

(By the Associated Press)
WASHINGTON, Oct. 1.—The conference on non-employment has one victory to its credit already. Urban Ledoux presented yesterday to the conference "human arguments," about half a hundred unemployed gathered from New York, Boston, Philadelphia and Baltimore. Nineteen of these today left for Williston, N. D. to work on farms there, having been provided with funds for the trip by several members of the conference.

LAST APPEAL IS MADE FOR CLOTHES CANVASS

All homes of Ada were urged this afternoon in a last hour appeal sent out by county Red Cross officials to have their bundles of discarded clothing ready and on the porch before 3 o'clock tomorrow afternoon for volunteer workers who will call for them.

School books may be left on the porches with bundles of clothing, workers said.

The campaign Sunday afternoon will cover the entire city and a special request has been made for clothing which will enable poor kiddies of the city to attend school. Because of light cotton picking many children in the city are idle at this time and should be in school but are unable to get fitted out, Red Cross officials said.

Roosevelt's Diary Exposes Many Untold Facts Noticed In Spanish-American Fight

(By the Associated Press)

NEW YORK, Oct. 1.—A terse history of the Spanish-American war as seen through the eyes of its most famous participant came to light when Mrs. Theodore Roosevelt presented the former president's diary to the Roosevelt memorial association.

The diary is a record of experiences and impressions, made up of laconic entries, some historical, some critical.

Shrifts of characteristic pointedness were aimed at the "stupidity of the ordinance department" while the colonel recorded the belief that in the war department there was "no management at all."

The diary is a small pocket volume and contained notes in pencil and ink. No part of it has ever been published before. Some of the most characteristic entries follow:

"May 6, 1898. Commissioned as lieutenant-colonel, U. S. voluntary cavalry. Wood as colonel by my choice.

"Ignorance Startling."

"May 7.—The delays and stupidity of the ordinance department surpass belief. The quartermaster's department is better but bad. The commissary department is good. There is no management whatever in the war department. Against a good nation we should be helpless.

"May 21.—The blunders and delays of the ordinance bureau surpass belief. They express us stuff we don't need, and send us the rifles by slow freight. There is no head, no energy, no intelligence in the war department.

"May 24.—Quota nearly filled. It is astonishing how rapidly we have armed, mounted and drilled these men. Wood's power of work and executive capacity are wonderful.

"May 30.—Railway system tends to break down; interminable delays; no proper facilities for un-

loading horses to rest, water or feed, etc., etc.

"June 3.—Reached Tampa in morning. Railway system in wild confusion; it took us 12 hours to get into camp with our baggage.

"June 5.—No word can paint the confusion. No head; a breakdown of both the railroad and military systems of the country.

"Each for Himself.

"June 6.—No plans; no staff officers; no instructions to us. Each officer finds out for himself and takes his chances. We are doing as well as the regular regiments. Have very light baggage.

"June 8.—Told to go aboard transport. Worst confusion yet. No allotment of transports; no plans; utter confusion.

"June 20.—Reached Santiago.

"June 22.—Laden.

"June 23.—Marched.

"June 24.—Fought—Las Guasimas.

We drove enemy in fine shape. Lost 60 men; killed and wounded 20 slight.

"July 1.—Rose at 4. Big battle. Commanded regiment. Held extreme front of firing line.

"July 3.—Truce at noon. Spanish fleet destroyed.

"July 4.—Truce. Mismanagement horrible. No head to army.

"July 10.—Bombardment again.

"July 11.—Truce again. Shifted camp a mile to extend lines. Heaviest rains yet, at night.

"July 18.—Shifted camp to foothill. One half of my men are disabled by wounds or sickness.

Mrs. Roosevelt also presented the Roosevelt memorial association with the spectacle case and manuscript of an address, pierced by a bullet aimed at Roosevelt in Milwaukee in 1916. It was from this manuscript that Roosevelt, a half hour later, read his campaign speech with the assassin's bullet still imbedded in his body.

18 Pontotoc Masons Are Candidates For Consistory Degrees

Pontotoc county will be heavily represented at the annual reunion of the Ancient and Accepted Scottish Rite Consistory reunion of the Valley of South McAlester, Orient of the Indian Territory, October 10, 11, and 12, according to a list of class members published recently by that body.

Ten men from Ada, one from Allen, five from Francis, and two from Tulepe are candidates for the Consistory degrees. Ada men listed are F. E. Alexander, H. S. Darlington, H. B. Haver, C. W. Hargard, S. W. Hill, S. J. Husar, E. B. Smith, A. W. Waddle, A. T. Wichee, and W. J. Wichee. Jack Moore, Allen, is also listed.

Those from Francis out of the degrees are A. E. Doner, H. A. Fagan, Albert Goetter, Earl Norman, and W. R. Weaver. Tulepe men are W. M. Massengale and John Phillipant. Six will go from Stratford.

DOPE POTS BOILING FOR WORLD SERIES

(By the Associated Press)

NEW YORK, Oct. 6.—Baseball fans throughout the land have started their annual chatter-box, the speculative forerunner of every World Series, the post-season classic of the national pastime. Patrons of the sport are predicting one of the greatest series in history.

An average of 25,749 persons attended each game in the seven-game series played last year between Brooklyn Nationals and the Cleveland Americans. The American League team, led by the famous Tris Speaker, defeated Brooklyn five out of the seven games. Three contests were played in Brooklyn and four in Cleveland.

Stanley Coveleski won three games for Cleveland, the first, fourth and seventh and gave but two bases on balls in all of them.

He allowed the Brooklyn batters five hits in the first game, one of which was a two bagger by Zack Wheat. In the second game he also allowed the Dodgers five hits, one a two bagger by Griffith, the Brooklyn right gardner. The third was another five-hit game, with no extra base wallops.

The most striking feature of the series was the triple play made by Wambknass, unassisted in the fifth game played at Cleveland on October 10. Wamby took Mitche's line drive, touched second from which Kilduff had started for third, then touched Miller in person as he raced toward second.

Ivy Olson, Brooklyn shortstop, Pete Kilduff, Brooklyn second baseman and Wamby, Cleveland second sacker, went through the series without an error. Olson had 12 putouts and 20 assists; Kilduff, 15 putouts and 28 assists; Wamby 22 putouts and 17 assists.

Sherrod Smith hurried two games for Brooklyn and allowed but no run in each, yet the Clevelanders beat him by that one lone tally in the sixth game at Cleveland.

Pershing Prepares To Participate in Honoring Soldiers

(By the Associated Press)

PARIS, Oct. 1.—General Pershing arrived today from Coblenz. He went at once to his hotel where he is considering plans for participation in the ceremonies at the graves of unknown soldiers.

A composite battalion of the American Expeditionary Force on the Rhine, numbering 700 officers and soldiers, arrived from there before noon. They will be guests of the minister of war and will be quartered in the Paris barracks. They will be given leave of the city Sunday afternoon and on Monday will leave for London to participate in the ceremonies at Westminster Abbey.

POSTAL WORKERS REFUSE TO ALLOW MUSIC TO DEPART

(By the Associated Press)

MINNEAPOLIS, Minn., Oct. 1.—Faced by the possibility of losing their loved phonograph, from which the music proved to be a boon for the postal clerks who worked on the "graveyard" shift from 7 p. m. to 3 a. m., the night workers, thru the aid of Postmaster E. A. Purdy, have decided upon a plan to buy the instrument and insure permanency of the music.

Working to the rhythm of harmonious melodies since August 12, the men became so accustomed to the music that thought of separation from it created pronounced depression among the clerks. From questionnaires examined and results obtained, it was proved that music lifted the burden of the night workers and made them more efficient.

The music craze is not a testimony fad of the men, Postmaster Purdy declared, adding that its efficacy in keeping up the morale of the night workers has been recognized by Postmaster General Will Hays. While at Washington in conference with Mr. Hays, Postmaster Purdy informed his chief of the results of the questionnaire sent to every one of the sixty or more clerks on the shift. The consensus of opinion was that:

Less effort was necessary to keep steadily at work.

The men were in a better frame of mind.

At the end of the shift, the men felt less tired.

Less amount of waste time.

Talking and chatting was practically dispensed with.

Brightened faces reflected the benefit of the music.

Worries, financial or domestic, were kept out of the mind.

Proving the valueableness of the phonograph, the machine was not used several night. A decided change was apparent, according to the foreman's report to Mr. Purdy. When the machine was playing, the men were through with their work before the duration of the shift, while two of the nights when the instrument was taken away, overtime was necessary, the foreman reported.

Dr. W. W. Keith is preparing to leave Ada to locate in Watonga, Oklahoma. Dr. Keith has made many friends while here, and they hope he will do well in his new location.

THREE SUSPECTS ARE HELD TODAY ON LOOT CHARGE

Officers Make Quick Arrest
After Two Men Take
\$1800 at Fitzhugh.

MONEY NOT LOCATED

Cashier May Be Called To
Say If Men Are 'Un-
masked Bandits.'

Two men, Claude Castleberry of near Asher and Arthur Gotcher of this city, were arrested by Sheriff Bob Duncan and Stratford officers late Friday afternoon and are being held in the county jail today, awaiting arraignment on a charge of robbing the Farmers State Bank of Fitzhugh at 2 o'clock yesterday afternoon.

Another man, Ed Stewart, also of Ada, is being held in jail here today in connection with the robbery. He was taken into custody by officers at Purcell about 9:30 last night and returned here. Stewart was bound over to the district court by Justice of the Peace H. J. Brown recently on an automobile theft charge.

Immediately after two unmasked men entered the Fitzhugh bank Friday afternoon and at the point of a gun forced J. R. Braselton, cashier, and three customers into a vault and locked it, making off with about \$1800 in bills. Sheriff Duncan was notified by telephone and left at once for the scene of the robbery. In less than three hours he and Stratford officers had traced the Buick car, in which the robbers are said to have escaped, to a point near Asher where it was parked.

Castleberry and Gotcher were arrested and brought to Ada. The latter is a son of J. P. Gotcher, Ada chief of police, and is about 25 years old, officers said. Castleberry, who is about 23 years or age, is the son of an early settler of this county. Officers who made the arrests said they were not yet ready to announce what connection they believe Stewart had in the robbery.

These three men probably will be arraigned this afternoon or early Monday. The money which was taken from the bank has not been found.

Whiskey Bottles Found.

Although only fragmental details of the robbery and of information on which the three men are being held was given out Saturday morning by the sheriff's office, it was said that some empty whiskey bottles were found in the touring car in which two of the men are alleged to have escaped. The car, officers said, belongs to Castleberry.

The cashier of the Fitzhugh bank said although the men were unmasked they were not known to him but he will probably be called to Ada soon to say whether or not the two arrested when the car was overtaken are the same that forced him into the vault after the robbery. About \$1000 in bills and other valuable papers was overlooked in a safe nearby when the robbers made their hasty exit, from the bank, he said. The next important development in the case will be the search for the missing money. Its discovery, if any, and disclosed, will throw much light on the hold-up.

Rumors that a woman also was being held in connection with the robbery was not substantiated by the sheriff's office.

PRESIDENT WILL SEE OLD BATTLE RESTAGED TODAY

(By the Associated Press)

WASHINGTON, Oct. 1.—President Harding, accompanied by a small party, including Mrs. Harding, left Washington shortly after 9 o'clock today for Fredericksburg, Virginia, to witness the maneuvers of the East Coast Expeditionary forces -- the Marine corps. The party will visit the various battle grounds of the Civil war including the Wilderness campaign. On the scene of the re-enactment of the famous Chancellorsville battle the president will review the 50,000 men composing the expeditionary force. Among the officials in the party are secretary of the Navy Denby, Secretary of Agriculture Wallace, and Brigadier General Sawyer.

Miss Elsie McRae has returned from an extended visit with friends at Lawton and Oklahoma City.

Oklahoma Weather.
Tonight fair and warmer, except in northwest portion. Sunday partly cloudy.

BIBLE THOUGHT FOR TODAY

GOD'S INFINITE LOVE:—For God so loved the world, that he gave his only begotten Son, that whosoever believed in him should not perish, but have everlasting life. John 3:16.

It is said the railroad workers, some of them and not all by a big number, think by striking they can force the government to take over the roads again. We are not saying this is the attitude, but if it is we suggest the workers go a bit slow. They are not dealing with Woodrow Wilson now, but with republicans who were elected to take care of big business. If the republicans handle the railroads, the workers can expect nothing more than the mail clerks get. The unions will not be recognized, and threats to strike will not be tolerated. The government cannot do less and exist. A government must be relentless to be a government. If the officials of the labor unions want to retain their power, they had better do all they can to keep the railroads in the hands of the private owners.

One railroad worker suggested to us a few days ago that the managers of the railroad properties want to force a strike to get the government to take over the roads. His idea is that the roads are no longer profitable investments for individuals, and those who have their money in the roads would like to unload on the government. On the other hand, the managers say the workers are trying to force the government to take them over. It all seems that somebody wants the government to take a hand. The one class that is opposed to government ownership and operation is the general public, the class that pays the freight.

The Roff Eagle wants the citizens of Roff to buy wood for fuel from the farmers instead of buying coal. This is a good idea, and should be put into practice in every town in the county, which does not have natural gas. Rural schools, too, which have been using coal in the past would do well to keep this money at home, even if the wood is not so suitable for heating purposes. In other words, we should keep every dollar in Pontotoc county that we can possibly keep. We do not advise doing without that which is needed, but if a home product can be substituted for an imported article, the substitution should be made.

"I have sold \$150 from a small patch of truck," said a Pontotoc county farmer today. "and another year I am going into the trucking game extensively." It is a good idea, for in the past we have not grown enough vegetables, berries and fruits for our own use. At the same time, would not be wise for every farmer to attempt this route, for that would mean an oversupply. The best plan is to plant what can be used at home and then have a substantial surplus for market. Arrangements should be made, where possible, to can or dry the surplus in case the market is glutted and cannot absorb it. There is always a market in winter for canned or dried food.

We believe Billy Sunday's position in reference to the Arbuckle case is misunderstood. We cannot believe that Sunday in any way excuses or condones what "Fatty" Arbuckle did. The point he makes is that when a bunch of people get together, drink and carouse, accidents are likely to occur. In other words, drunk people are likely to kill one another, and any one who wants to live ought to keep out of such company. In this case, he thinks Arbuckle is just as much to blame as and no more to blame than the other members of the party.

The churches of Ada report good crowds last Sunday but the crowds should be even larger tomorrow. If Ada could become known far and wide as an ideal church and school town, the population would double in two years. People want to make money and grow rich, but above all fathers and mothers want to live where their children can be trained in the ways of right living and clean thinking.

Of course, if the railroad workers want to strike, let them strike. We ought to know whether a government agency amounts to anything or if it exists merely for the purpose of existing.

That story coming out of Paris about a man 146 years old marrying a girl 23 sounds a bit fishy. Still, they say there's no fool like an old fool.

Four million men are said to be out of work; several times that number are trying to get it. It's a tough old world, but the best one we recall at this moment.

There are just as many dollars in the United States today as there were a year ago, but they are circulating as fast. However, there is consolation in the fact that one will buy more now than it would then.

The Evening Press

A Sacred Requirement of Nature
(Daily Ardmore)
One of the potent factors in dividing men into classes is their viewpoint of work.

One man looks upon labor some what as he would upon a penal sentence from a court, his idea of labor is that only the poor are to perform it, that the must work that others might rest, his one slothful dream of wealth is to give him freedom from work, his idea of dollar hunting has the one incentive—that he might be able to rest. He believes that if wealth were to come to him his first use of it would be to quit work. This class of people retire from all activities as soon as they can and often they allow themselves to be retired by age when they have only reached the youth of old age.

The direct opposite of this class are the men who are in love with their work. They have a goal they are seeking to reach. That goal may be the paying out of a farm or the building of a sky scraper or the giving of a college training to children. It matters not what the goal is it is a source of inspiration at evening and it sends them cheerfully about their task each morning. Work is man's greatest solace, work is a halo distinguishing the willing worker from the man who looks upon labor as a form of slavery.

There are as many goals to be reached through labor as there are men. Every man owes it to himself to strive for supremacy. He may seek sheep raising, in surgery, in law, in some branch of the ministry, it matters not in what legitimate line just so it is striving to do some one thing better than any other contemporary is doing it. A minister may realize that he can't go to the top in pulpit oratory but there are a dozen phases of the ministry and in one of them he can excel. One farmer may know that in ownership of acreage he cannot go to the top but in plant breeding he can.

While some hale, hearty slothful man lazily dreams of the hour when he can quit work the invalid who has been forced to sit a score of years yearns for the sweet privilege of doing one day's labor, although that day may be with pick and shovel it would come as a holy benediction to close a life of invalidism.

"Six days shalt thou labor" was not a sentence of servitude. It is an expression of man's greatest liberty, of his most vital opportunity—that of labor. To be able to work is one of mankind's many rich blessings. In counting over the many things to arouse gratitude the privilege of labor stands near the top. To work is one of nature's most sacred requirements. A cessation from labor destroys usefulness and when usefulness is gone happiness goes with it.

Recount the men you know intimately who have risen above their fellows. You will remember awkward youth that provoked laughter and gave little promise but in maturity you see this same youth has excelled others. Back of his every achievement is constant labor in a direct line. He did not scatter his fire. He did not try to know everything but he strove to master one thing. Success does not come as a gift, it is born of arduous labor. Success is not a thing to be limited to a few; there is enough for generous distribution among all men and work marks the road that leads to its fountain head.

LEADING HITTER HONORS IN DARK UNTIL GAMES END

(By the Associated Press)
CHICAGO, Oct. 1.—The champion batter of the American League may not be known until the last game of the season has been played this season. The race has settled down to a nip and tuck battle between Ty Cobb, pilot of the Detroit Tigers and his hard hitting outfielder, Harry Heilmann. Babe Ruth is the dark horse for premier honors.

The Detroit sluggers, tied a week ago, are separated by one point, according to the averages released today and which includes games of Wednesday. Heilmann is hitting .391 while his boss has a mark of .390, the former having participated in more games than the Georgia peach. Ruth is trailing the pair with an average of .380, a gain over his mark of a week ago of two points. Heilmann dropped three points while Cobb lost four. George Sisler, the St. Louis star, suffered a slight falling off in his stick work, but retains fourth place with .375, while Tris Speaker, manager of the World's champions, is holding fifth place with .358, a loss of eight points.

Ruth cracked out two home runs since the last compilation of averages and now has a season's record of 58. The big Yankee slugger is far in the lead as a run getter, having counted 176 times while his 201 hits have given him a total of 449 bases. Besides his circuit drives, Babe has slammed out 44 doubles and 15 triples.

Sisler kept pace with S. Harris, of Washington for the stolen base honors. Each added one to his string, but the St. Louis player is showing the way with 28 thefts, one in front of his rival.

Why not rent that extra bedroom and have a steady income? Let the News want ads get a roomer.

PRISONERS GOING FOR OSAGE HILLS

Bartlesville Jail Breakers
Work Clever Ruse and Gain Freedom.

(By the Associated Press)
BARTLESVILLE, Oct. 1.—Late developments in the escape of nine prisoners from the county jail last night were brought out this morning with the capture of Alfred Anderson, one of the fugitives, while asleep in a shed. According to Anderson, outside help assisted the prisoners to get away. Several autos were outside the jail to take the prisoners to the Osage hills. Authorities are now working on this view. It is believed by authorities that the jail delivery had been carefully planned for sometime and that

Floyd Bynum and John Ballantine, held in connection with the murder of Felix Pugh at Ramona last August, were rushed to a place of hiding in the Osage hills.

(By the Associated Press)
BARTLESVILLE, Oct. 1.—Police are acting on the theory that the nine prisoners who escaped from the county jail here last night are headed for a rendezvous in the Osage hills. The men are all desperate characters. Included in the list are two men charged with murder in connection with the killing of Felix Pugh last August.

A clever ruse was successfully worked by the prisoners, according to the night jailor. One of the men complained of headache and asked for some aspirin. When the jailor unlocked the door two men overpowered him and threw a blanket over his head. Taking the keys from him they unlocked the other cells and released the prisoners. One of the prisoners had shackles on his legs and left with them on.

A woman prisoner, held on a charge of murder, and Jake Williams, a negro, also charged with murder, refused to leave their cells, according to the jailor.

Let a News Want Ad get it.

May Get Free School Books

A good collection of school books not in use have been gathered up from all the ward schools and deposited at the office of the city superintendent. Any children of the city who are in need of such books can get same by applying at the office. —Mabel Browal, secretary.

"Union Suit the Whole Family In

MUNSINGWEAR

and You'll All Be Comfortable This Winter"

Some folks seem to have the idea that Munsingwear is high priced. The fine quality and careful workmanship in Munsingwear undoubtedly gave that impression.

When they find out the price of the particular Munsingwear style and fabric that they like best, they are usually surprised—and delighted. They are delighted again when they put on their Munsingwear—it fits so perfectly, feels so comfortable.

The climax to their Munsingwear experience comes when they discover how long it wears.

For any man, woman or child—tall, thin, short or stout—there's a perfect fitting Munsingwear garment in any style, fabric or weight desired.

IN SOCIETY

Auxiliary Entertains.

Doors of the Presbyterian manse were opened Monday afternoon from 3 to 5 o'clock to ladies of the church, the congregation and friends to meet each other and welcome new members who have recently come to Ada.

Mrs. N. P. Patterson, hostess, was assisted in receiving and entertaining by Mesdames W. G. Moser, C. V. Gowing, W. N. Mays and J. M. Vaden. A profusion of the season's rarest flowers were artistically arranged through the house, bringing out an autumn effect. A special feature of the afternoon was a musical program in which Mrs. Russell gave two piano numbers, Miss Geraldine Hale a vocal solo, and Mrs. Byron Norrell two voice numbers.

Refreshments were served after the program.

Patrons' Club Formed

Patrons and teachers of Glenwood school met Friday afternoon at 2:30 and organized a Parent-Teachers' association. A large number of patrons were present at the meeting and much enthusiasm was shown. Mrs. Carrier was elected president of the club, Mrs. Estill Peay, vice-president, Mrs. J. C. Horton, secretary, and Mrs. Emerson, treasurer. Meetings will be held on the first and Friday afternoon of each month at the school building. All patrons of the school are earnestly urged to be present at these meetings and help make the organization a success.

Loyal Daughters Meet.

Mrs. A. Linscheid entertained the executive members of her Sunday school class, the Loyal Daughters, at her home Thursday evening. Guests were assembled at 6 o'clock and a delicious three course dinner was served after which a discussion of aims and plans of the class were discussed in round table order. Those present were Mesdames Francisco, Williams, Yeargin, Strom, Roach, Holman, Bills, Lillian and Nell Hodge, Barber, Hall, Cox, Emorey and Mrs. Linscheid.

Big Crowd at High School
Between 300 and 400 students, patrons, and friends of Ada high school gathered at the building Friday evening in what school authorities declare to be the most successful mixer ever held there.
For two hours a general good time absorbed the attention of both young and old. Games of the by-gone days were played by the older folk with apparently as much zest as the ones played by the younger. The high school band furnished music and when the games were ended the committee assisted by the junior and senior girls of the high school served ice cream to the crowd which was unusually large considering the cool weather.

Mrs. Morris Receives.
The Glad Girls Class of the First Baptist church was entertained Thursday evening at the home of Mr. and Mrs. C. C. Morris. A jolly evening was spent in playing games and refreshments consisting of sandwiches and punch were served.

The following were present: Daisy Hawkins, Inez Love, Clyde Kitchens, Mildred Bowie, Aline Thomas, Irene Walker, Nina Simerly, Verna Shirley, Lorene Neal, Anna Ford, Mary McCarty, Geneva Braly, Eunice Cleveland, Lottie Cochran, Hazel Bainley, Gladys Brewer, Ruby Eldridge, Bessie Hill, Mary Lee Funnutt, Vay Duncan, Juanita Horn, Maurice Evans, Lewell Little, Jessie Cales, Leota Brown, Louise Walker, Estelle Jackson, Irene Deering, Elzie Ayers, and Velma Lee Mount.

The Treble Clef club of the Normal sang at the high school assembly Friday morning. The concert was particularly enjoyable in view of the fact that eight of the ten singers are graduates of Ada high school.

PLAN GREATER THINGS FOR BOY SCOUT WORK

The Pontotoc county Boy Scout Council met last night at the Harris hotel and planned ways for carrying on the work another year. James P. Fitch, regional scout executive of Dallas, Texas, was present and inspired the workers to greater efforts to help more boys in the coming year. Mr. Fitch has been in the scout work a number of years and now is executive for Texas, Oklahoma, New Mexico and Arkansas.

Harry Miller, local executive, told of the work the scout movement has done this year. There are now 300 boys in this county who are learning the duties of citizenship, respect for flag and love for country, how to take care of themselves in emergencies and what it means to be of service to others. Hundreds of other boys are to be brought into the work within the next twelve months.

All those present said they were pleased with the results obtained. They are anxious to see work go on with renewed vigor and heartily endorsed the record of Mr. Miller. In addition to those who live here, Hugo Hughes, Dr. Hill, Rev. Bryan and Jaques Kykendall of Roff attended.

SINCLAIR ADVANCES OIL PRICES TODAY

(By the Associated Press)
TULSA, Okla., Oct. 1.—The Sinclair Purchasing Co. today posted a notice of an advance in Oklahoma and Kansas oils, which formerly commanded a price of \$1.00 per barrel to \$1.25. The Prairie Oil and Gas Co., the Texas Co. and other purchasers of crude oil are expected to meet the advance.

WONDERS OF AMERICA

HOME OF WASHINGTON

ON THE peaceful and picturesque shore of the River Potomac, some sixteen miles south of our national capital, stands Mount Vernon—the home of The Father of His Country. It was so named in honor of Admiral Vernon of the British navy and it is to the efforts of the Mount Vernon Ladies' association of the United States that the citizens of America are indebted for the preservation of this national shrine.

Occupying a site of great charm, commanding a sweeping view of broad river and pleasing landscape, is this grand old mansion—to which the young officer came to live shortly after his marriage and to which he retired from the presidency, to spend his days in a manner befitting one of his rank, means and time, and where he died in 1799.

The structure was built in 1743 and contains many of the original furnishings and relics of the family. Clustered about it are the barn, coach house, spinning house, meat house, ice house, wash house, kitchen and other outbuildings. Nearby is a remarkable, old-fashioned garden, with quaint, oddly-designed spaces set off by box hedges, said to be 150 years old. In this garden is a coffee tree said to have been planted in 1824 by General Lafayette and cuttings from a willow tree which it is claimed were brought from the grave of the great Napoleon at St. Helena.

Enclosed in two marble sarcophagi in a small and simple structure within the grounds, rest the remains of General George Washington and his consort Martha.

CURING TUBERCULAR WAR VETS NEW TASK

(By the Associated Press)
OKLAHOMA CITY, Oct. 1.—The preliminary program for the fourth annual public health conference of the state department of health and the Oklahoma Public Health association which starts Tuesday, October 11, was announced here today at the offices of Dr. A. R. Lewis, state health commissioner.

The conference this year is scheduled as the most extensive in the history of the state. Tuberculosis and its cure as applied to the veterans of the world war, examination of vital statistics, and health educational methods are among those subjects to be discussed at the convention which closes Wednesday, October 12.

The program announced follows: October 11: Registration of delegates at 8 a. m., and morning session proper at 10 a. m.

Address of welcome, Governor J. B. A. Robertson; Tuberculosis, by Dr. L. J. Moorman, president of tuberculosis society of Oklahoma City; Relative values in the anti-tuberculosis campaign, by Dr. Charles Hatfield, managing director, National tuberculosis society; Fraternal organization and the health campaign, by Charles Dierker, state deputy of the nights of Columbus, Shawnee; The state tuberculosis sanatoria, by Dr. A. R. Lewis, state health commissioner, Oklahoma City.

The afternoon session proper starts at 2 p. m. The program concerns Oklahoma health problems, the opening address is by Dr. Hugh S. Cummings, surgeon general U. S. P. H. S., Washington. Other addresses are: Value of vital statistics to the public health, by Dr. Gayfree Ellison, University of Oklahoma, Norman; Eradication of typhoid fever, by Dr. Thomas Patron, health officer, Tri-State Sanitary district of Joplin; Agencies for county health improvement, by Dr. J. Angus Gillis, county health officer, Frederick.

Open to Public.
The evening session starts at 8 o'clock p. m. and is open to the public. The discussion is on the care of tuberculosis of former soldiers. Addresses include: What the federal government is doing for the disabled soldier, by Dr. Hugh Scott, U. S. P. H. S., Washington; Difficulties in the treatment of tuberculosis among former service men, by Dr. Charles J. Hatfield, managing director National Tuberculosis association New York City; The attitude of the American Legion, by H. B. Fell, state commander, Oklahoma department, American Legion.

Wednesday morning's session, which starts at 8:30 a. m., is taken up with discussion of health educational methods. The first address by R. E. Lubn, executive secretary, Tuberculosis Society of Oklahoma City, is concerning the "Elements of a Health Education Campaign." Other addresses are "Public Health Nursing and Infant Mortality," by Harriet L. Lee, field director of the American Child Hygiene association, of Baltimore, Md., "Teaching Health to School Children," by C. H. Richards, president of the Carter County Public Health association and reports from local associations and the county public health committees.

The afternoon session concerns "Industrial Health." Business begins at 12:30 p. m. "Health and Welfare Service in a Large Industry," is to be discussed by R. O. Von Thurn, Cosden and Company of Tulsa. "Social Optimism," will be explained by John A. Lapp, L. L. D., Editor, Nation's Health, Chicago, Ill. "Everybody's Business" is the subject of an address by J. F. Owens, president of the Oklahoma Public Health association of Oklahoma City.

The annual meeting of the Oklahoma Public Health association begins the same afternoon at 4:30 p. m. The reports to be made include: The report of the general secretary, report of the treasurer, report of special committees and election of directors and officers.

A banquet is to be held at the evening session, at the Huckins hotel, Oklahoma City.

OUR LARGEST MUNICIPAL PIER

CHICAGO'S municipal pier, one of the largest and most useful public structures, is likewise one of the stupendous engineering feats of the times. It not only provides 8,500 feet of dockage space and more than 450,000 square feet of freight storage space, but is also a magnet of enormous proportions for recreational purposes.

This great structure juts out into Lake Michigan for 3,000 feet and is 292 feet wide. In its construction there were used 20,000 piling, 1,500,000 cubic yards of sand and clay and 50,000 cubic feet of re-inforced concrete; 80 cars of steel sash and doors and 80,000 window panes. Although sub-divided into a headhouse (the shore end), a freight-and-passenger section, a terminal building and a recreational section, it is all under one roof.

Street cars ascend an incline to the second floor and run out to the terminal building. Foot traffic is accommodated by 16-foot-wide board walks, 2,340 feet long, reaching out to the recreation end of the building.

In addition to spacious waiting and rest rooms, there is a hospital, restaurant, art room, auditorium—used for dancing, concerts and banquets,—and a roof garden.

THE MONUMENT TO THE PILGRIMS

A TOP TOWN HILL in Provincetown, Massachusetts, looking out over the restless sea from the great arm which that state flings out into it, stands a great and impressive monument of extraordinary beauty and great dignity.

This monument, one of the tallest on this continent, commemorates the anchoring of the Pilgrims in the historic Mayflower in the year 1620, their adoption of the first charter of a democratic government in the history of the world, the birth of the first white child born in New England and the whole chain of happenings which preceded the settlement at Plymouth.

Built entirely of Maine granite, the construction supervised by the Engineering Department of the United States Army, this structure rests upon a sixty-foot-square foundation, is 28 feet square at the base, approximately 252 feet high and the site is about 100 feet above the tides. The architecture is of the Italian Renaissance order, the design having been copied from the tower of Torre del Mangia at Siena, Italy.

The site was provided by Provincetown; the cost of the monument was defrayed by a joint fund contributed by Congress, the Commonwealth of Massachusetts, the town of Provincetown and individuals in all parts of the country. Dedication exercises were held on August 5th, 1910, the President of the United States being in attendance.

This staunch and magnificent commemorative structure, standing in silent triumph, is typical of the resilience and love of freedom which characterized this little band in their battle with the elements and fate and of their descendants in all parts of the world.

If you have something to sell, why not advertise it in the Ada Evening News? That is the quick and certain way to reach the buyers of Ada and other towns of the county? Want ads do not cost much.

"DANGER AHEAD!" THRILLS WITH SEA ATMOSPHERE

Mists, fogs, the changing sea and the quaint people who live sheltered lives along the New England coast combine to give a touch of realism and art to "Danger Ahead!" the Universal photo-drama now showing at the McSwain theatre.

Heart-grIPPING in its intensity and yet with a fund of droll humor, the picture combines those human interest elements with a comedy angle engaging and refreshing after a season of wierd and artificial pictures.

The story was adapted from "The Harbor Road," written by Sara Ware

Bassell and centers about the life of a little boarding house slavey in a summer seaside colony.

This role is portrayed by little Mary Philipin, a new personality to the screen—but one which will undoubtedly be followed with interest by thousands of play-goers as the months go by.

Do you want to buy meat or eggs or butter direct from the farm? Find a farmer to supply you by advertising in the Ada Weekly News. They all read it.

Mrs. Gilbert Jenkins of Sulphur is visiting friends in this city for the week-end.

Do You Think?

'PROMINENT' MAN IN SCANDAL CASE

San Francisco Leader May Be Implicated in Booze Charge on Fatty.

(By the Associated Press)
SAN FRANCISCO, Oct. 1.—A new angle has developed in the federal inquiry into the source of the liquor consumed at the party given by Roscoe Arbuckle at which Miss Virginia Rappe is alleged to have suffered fatal injuries, as a result of which charges of manslaughter were placed against Arbuckle on indictment by the grand jury. Robert McCormick, special assistant to the general of the United States, has the case in charge and may shortly file a complaint against Arbuckle charging him with having liquor in his possession unlawfully. There is much speculation concerning the identity of two other men who McCormick said would be charged jointly with Arbuckle. One of them is said by the federal attorney to be a prominent San Francisco business man who had been present at the Arbuckle party a few minutes.

SCIENTIST AT WORK ON ANCIENT MOUNDS

(By the Associated Press)
EAST ST. LOUIS, Ill., Oct. 1.—Smaller groups of the Cahokia Indian Mounds, four miles north of here, one being opened and studied in an effort to gain more definite information about the prehistoric Mound Builders than hitherto has been obtained.

Scientific research work on the mounds has been started by W. K. Moorehead, archaeologist, who was appointed by the Illinois State Museum to make the study. A number of ex-servicemen from Massachusetts are assisting Dr. Moorehead in excavating and tunneling the mounds.

Mr. Moorehead, explaining his undertaking, said:
"Our purpose is to study skeletons and relics which we hope to find in the mounds. These will enable us to classify the period of civilization and development of the Mound Builders. Careful excavation of village sites and burial grounds will be made to obtain skeletons and relics."

"A skeleton of the Cahokia people has not yet been obtained. If we are successful enough to find any, Dr. Alice Harlick of the Smithsonian Institute will study it and might be able to reconstruct the physical type of the Cahokia people."

"Preliminary examination of the Cahokia region seemingly indicates that there are eighty or more mounds in the group and not 64 as previously stated. The region needs a new survey and Clinton Cowan, formerly city surveyor of Cincinnati and lately highway commissioner of Ohio, has promised to map out the mounds."

The scientist is a member of the United States Board of Indian Commissioners and is associated with the Curator Department of Phillips Academy of Andover, Mass.

Funds for the work were furnished by scientific educational organizations and permission to carry on the project was granted by property owners on whose lands the mounds are located. Museums throughout the east and midwest are said to be interested in the research.

LONDON HOPEFUL AT NEWEST LOOK ON IRISH ISSUE

(By the Associated Press)
LONDON, Oct. 1.—A feeling of optimism prevails over the prospect of a final settlement of the Irish problem at the coming conference between Premier Lloyd-George and representative of the Sinn Feiners which will be held October 11. The conciliatory tone of De Valera's note accepting the invitation from Lloyd-George to the conference indicates that at last a solution of the long standing struggle may be in sight and an agreement reached at the coming conference. London newspapers regard a settlement as certain.

HUGHIE LABORS HARD TO BRING GIANTS ACROSS

(By the Associated Press)
NEW YORK, Oct. 1.—A great deal of the credit for bringing the New York Giants successfully thru the 1921 pennant campaign is being given to Hughie Jennings, the grass-chewing, jumping jack who won managerial fame as leader of the Detroit Tigers.

In October of 1920, Jennings signed a contract to serve as assistant manager of the Giants, taking the place made vacant by Johnnie Evers, who had been selected to manage the Chicago Cubs. The acquisition of Jennings by the Giants came as a surprise to the fans and it was generally predicted that he would be one of the most able assistants John McGraw ever had.

McGraw in no wise relinquished his job as manager but Hughie began at once to do all the work ahead. His "E-yah" and grass pulling had been seen before at the Polo Grounds but with Hughie as a Giant, the fans took him differently. It was "Atta-boy Hughie" where before it had been "Aw go and lay down."

The good-natured Jennings soon won favor with the players and his fighting helped them to pull thru many tough games. Jennings is considered a great little general and has proved an able 2nd-helmsman.

His Fifteenth Year.
This is Jennings' 15th year as a leader. He won pennants in the American League with Detroit in 1907, 1908, and 1909. He is not exactly a stranger in the National League, having spent several seasons with teams representing Baltimore, Brooklyn and Philadelphia in the older circuit. He was a comrade of McGraw's on the famous old Oriole aggregation.

Jennings was born in Pittston, Pa., in 1870, and first played professional baseball with the Lehigh Valley club in 1890. The following year he signed with the Louisville, Ky., club of the American association playing first base and short. In 1894, he was traded to Baltimore Nationals and four years later was shifted to the Brooklyn Nationals and two years later returned to the Baltimore, Eastern league club, playing second and short until 1907 when he was drafted by Detroit. He was made manager and won the pennant that year. All of his Detroit teams were regarded as pennant contenders.

WONDERS OF AMERICA

AMERICAN MUSEUM OF NATURAL HISTORY

THE cornerstone of the home of this wonderful collection in Manhattan Square, New York City, which contains some ten acres of floor space, was laid by President Grant in 1877.

The purpose of this great "curiosity shop" is to procure actual specimens upon which accurate knowledge of the animals, birds, minerals and other wonders of the world are based and exhibit them for the edification of the public.

A few of the displays which attract particular attention, the like of which probably does not exist elsewhere, are: the largest known meteorite, brought from Greenland and weighing 36 tons; an Indian dugout 64½ feet long, made from a single tree; a section of a California tree, 16 feet in diameter and more than 1,300 years old; a life-size model of a 79 foot whale, probably the largest animal that ever lived and which probably weighed 70 tons; mounted specimens of more different kinds of birds than you imagine the world contains; a collection of implements used by prehistoric man, representing a period of approximately 250,000 years; exhibits of fishes, including some so primitive as to be scaleless; an exhibit of snakes that gives you the creeps; an intensely interesting exhibit showing how disease is transmitted by insects, and a library of some 70,000 volumes on natural history, travel and anthropology.

TWO EARTHQUAKES ARE FELT THROUGH ILLINOIS
(By the Associated Press)
CHICAGO, Oct. 1.—Two distinct earthquake shocks were felt in portions of Illinois at 3 o'clock this morning. Sleepers were aroused and considerable alarm occasioned, but no damage is reported.

Stories of Great Scouts

WHEN ANDY LEWIS FOUGHT CHIEF CORNSTALK

The battle of Point Pleasant on September 10, 1774, was the first "all-American" battle ever fought on this continent. Europeans had taken part in all important engagements before—French and Indians against British and Americans. But when Andy Lewis and his borderers battled with Chief Cornstalk and his Shawnees, it was strictly a native affair.

Lewis was born in Ireland, but he had come to this country while still a child, and he was no less an American than the frontiersmen he led. He fought with George Washington in the French and Indian war and he became one of the greatest leaders of the colonial troops. He was six feet two inches tall and powerful.

Lewis was chosen by Lord Dunmore in 1774 to lead a picked body of men against the Shawnees while Dunmore attacked them from another direction. Chief Cornstalk knew the two armies were coming and decided to defeat one before the other could join it—a favorite trick of Napoleon.

The Shawnees attacked Lewis' army early one morning. Lewis had taken out his pipe when the first shot was fired. He coolly finished lighting his pipe and then gave the orders to his men, who rushed to meet the Indians. Both sides fought "Indian-fashion," dodging from tree to tree and taking advantage of every bit of cover. The fighting was at a close range and in the smoke-filled forest frontiersman and Indian came hand to hand—tomahawk against hunting knife.

Late in the afternoon the Indians gave way, but there was no rout. Cornstalk was too good a general for that and the Americans paid dearly for every foot of ground they won. That night Lewis held possession of the battlefield, but he had won it at a terrible cost—75 men killed and 140 wounded. Andy Lewis and his borderers had won the greatest Indian battle in early American history.

Andy Lewis did not have a chance to make a name for himself in the War of the Revolution which soon followed. He was passed over for generals of less ability and he died in 1780, an embittered, broken-hearted old man. The fate of his opponent, Cornstalk, had also been a sad one. In 1777 he came to a fort on the Ohio on a friendly mission. He was arrested and thrown into prison. While there the great Shawnee leader was treacherously murdered by a mob of soldiers in revenge for the death of a comrade who had been killed by Indians.

Commercial Printing with class is the kind you get at the Ada News Print Shop. Prices are as low as excellent work will justify.

NEW YORK CAPTURES LEAGUE HONOR TODAY

(By the Associated Press)
POLO GROUNDS, NEW YORK, Oct. 1.—New York captured the American league championship, their third in history, when they defeated the Philadelphia Americans by a score of 5 to 3 this afternoon before a crowd of 25,000. The New Yorkers needed but one game of the three remaining in order to win the pennant.

Mays had one bad inning in which Philadelphia scored their three runs. After that he was invincible. The recent invalid, Babe Ruth, returned to the game and went hitless.

New Grocery Store.
Butler Brothers have moved from Bromide to Ada and entered the grocery business at 205 East Main. W. L. and L. J. Butler are not strangers in Ada as they came to this city in 1901 when their parents moved from Tennessee to the Indian Territory. J. J. Butler attended school here for about three years. Eight years ago the Butler son farmed near Ada for several years. Eight years ago the Butler moved to Bromide and entered the mercantile business.

Why not sell those extra hens about the place? A News want ad will sell them to advantage.

WEAK; RUN-DOWN

Carolina Lady Got So She Could Just Drag—"Cardui Built Me Up," She Declares.

Kernersville, N. C.—In an interesting statement regarding Cardui, the Woman's Tonic, Mrs. Wesley Mabe, of near here, recently said: "I have known Cardui for years, but never knew its worth until a year or so ago. I was in a weakened, run-down condition. I became draggy—didn't eat or sleep to do any good; couldn't do anything without a great effort. I tried different remedies and medicines, yet I continued to drag."

"I decided to give Cardui a trial, and found it was just what I really needed. It made me feel much stronger soon after I began to use it. I began to eat more, and the nervous, weak feeling began to leave. Soon I was sleeping good."

"Cardui built me up as no other tonic ever did. I used Cardui with one daughter who was puny, felt bad and tired out all the time. It brought her right out, and soon she was as well as a girl could be. We think there is nothing like Cardui."

Do not allow yourself to become weak and run-down from womanly troubles. Take Cardui. You may find it just what you really need. For more than 40 years it has been used by thousands and thousands, and found just as Mrs. Mabe describes. At your druggist's. NO-142

Extra Comfort—Extra Values

When you lay down your good money for a Sedan you expect—and you are entitled to—extra comfort.

Long experience specializing in enclosed models has enabled Paige to produce cars of this type in which fundamentals of design, including such engineering features as spring suspension, give the Paige an ease of riding that can not be excelled.

Thanks to these basic principles, to an exclusive power plant that eliminates vibration and responds with marvelous flexibility, and to the best appointments that money can buy, the extra comfort the Paige 6-66 seven-passenger Sedan offers is beyond price.

All Paige enclosed models, whether built on the larger 6-66 chassis or the 6-44 chassis, are the finest combinations of comfort and mechanical efficiency for year-around family service now available.

The buyer of these enclosed models is guaranteed advantages which can not be matched elsewhere at any price. We suggest you confirm these statements for yourself by accepting a demonstration.

List prices of Paige Cars range from \$1635 to \$4030

Notice to Paving Contractors.

(Published Sept. 29, 30, and Oct. 1, 3, 4, 5, 1921.)

Notice is hereby given that, in pursuance to an order of the Board of Commissioners of the City of Ada, Oklahoma, sealed bids will be received at the office of the City Clerk of the said City until two (2:00) o'clock p. m. on the 11th day of October, 1921, for the furnishing of the materials and the performing of the work necessary in paving and otherwise improving, in the manner and subject to the conditions hereinafter set out, the following named avenue, in said City of Ada, Oklahoma, comprising Street Improvement District No. 9, to-wit:

North Mississippi Avenue from the north line of East Main Street to the south Right-of-way line of the St. Louis and San Francisco Railway, including all streets intersections and alley crossings on the above described avenue in the City of Ada, Pontotoc County, Oklahoma.

The cost of such improvements on said avenue shall be borne and paid by the owners of property benefited by such improvements upon the said portion of said avenue hereby ordered to be improved.

The entire cost of said improvements on said portion of such avenue shall be apportioned to and levied and assessed against the abutting property liable to assessment therefor, and the owners thereof, in accordance with the provisions of the State Laws of Oklahoma governing same.

The plans and specifications for the improvement of the said avenue and portions thereof have been prepared by the City's Engineer, and include and set forth in detail all of the different materials and plans and methods of construction.

The class of pavement to be constructed shall consist of six (6) inch single course plain concrete.

The contract will be awarded to the bidder submitting the most advantageous bid, who will undertake and perform the work and furnish the materials according to said plans and specifications and who will also comply with the terms and conditions contained in the resolutions of the Board of Commissioners of the City of Ada declaring the necessity of and providing for the improvement of the above named described avenue. A copy of such resolution will be furnished to bidders upon application therefor, at the office of the city clerk.

The contractor to whom the contract may be awarded will be required to execute and furnish the city a good and sufficient Construction Surety Bond in amount equal to fifty (50) per cent of the whole bid, conditioned for the full and faithful execution of the work and the performance of the contract.

The contractor will also be required to execute and furnish the City a good and sufficient Statutory Surety Bond in the full amount of the contract running to the State of Oklahoma, which bond shall guarantee the payment of all bills for tools, machinery, rental labor and materials used in or about the construction of said work. This bond shall be presented to the City at the same time as the Construction Bond, and, after being approved, shall be filed with the Clerk of the District Court.

The Contractor shall also furnish before the allowance of the final estimates and acceptance of the work

FOR SALE

Owner says sell practically new six room bungalow with large basement, strictly modern, two fifty foot lots on pavement, \$4500, terms reasonable.

A dandy four room strictly modern house, garage and good storm cellar; one of the best locations in the city, must sell for \$3,250, on reasonable terms.

New five-room modern Bungalow, garage, servants house and chicken house; close in; good location for immediate sale, \$3750; some terms.

J. W. COOK

Office Upstairs Guaranty Bank Building — Phone 547

a Maintenance Surety Bond in amount of approximately three (3) per cent of the cost of the work, conditioned for the maintenance in good condition of the paving, curbing and drainage for a period of five (5) years from the time of completion and acceptance by the City.

Bids must be upon proposal sheets to be furnished by the City Engineer and each bid must be accompanied by a certified check on some solvent bank in the State of Oklahoma in an amount equal to five (5) per cent of the amount of the approximate total cost of the work, based upon the Contractor's bid. The Board of Commissioners bid. The Board of Commissioners of said City reserve the right to reject any or all bids, and bidders are cautioned to observe all the conditions set out in the specifications and bidding sheets.

Each bidder shall accompany his bid with a sworn statement in writing that the bidder has not, directly or indirectly entered into any agreement, expressed or implied, with control of the price and amount of such bids or limiting the number of bidders. No bidders shall divulge sealed bids to any person whatever except these having a partnership or other financial interests with him in said bid, until after the said bids are opened. The violation of any of the foregoing provisions on the part of the bidder shall make void any contract made by him with said city based upon said bid, all as provided in Section 1, Article IX, of the Charter of City of Ada, Oklahoma.

Bids received as aforesaid will be opened and considered by the Board of Commissioners at a meeting to be held at the City Hall in the City of Ada, Oklahoma, at 2:00 P. M., on the 11th day of Oct. 1921. All bids are required to be placed on file in the office of the City Clerk for inspection for forty-eight (48) hours after opening before the award or rejection of bids can be made.

Complete plans and specifications can be procured from the Engineers, Benham & Mullergren, Consulting Engineers, 8th floor Firestone Building, Kansas City, Missouri, upon the payment of Ten Dollars (\$10.00). Upon return in good condition of all plans and specifications within two weeks after the date of letting a refund of Five Dollars (\$5.00) will be made. The plans and specifications are on file in the office of the City Clerk of the City of Ada, Oklahoma, and may be examined by all persons interested.

Dated this 27th day of September, 1921. W. B. JONES, City Clerk and Commissioner of Accounting and Finance. (Seal)

Benham & Mullergren, Consulting Engineers, 8th Floor Firestone Building, Kansas City, Missouri. 9-29-6td

JOY BROUGHT INTO HOME

By Lydia E. Pinkham's Vegetable Compound, Restoring Mrs. Benz to Health

Altoona, Pa.—"I am writing to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. We have had six children die almost at birth. From one hour to nineteen days is all they have lived. As I was going to have another, I took a dozen bottles of your 'Vegetable Compound' and I can say that it is the greatest medicine on earth, for this baby is now four months old and a healthier baby you would not want. I am sending you a picture of her. Everybody says, 'That is some healthy looking baby.' You have my consent to show this letter."—Mrs. C. W. BENZ, 1813rd Ave., Altoona, Pa.

No woman can realize the joy and happiness this healthy babe brought into the home of Mrs. Benz, unless they have had a like experience.

Every woman who suffers from any ailments peculiar to her sex, as indicated by backaches, headaches, bearing-down pains, irregularities, nervousness and "the blues," should not rest until they have given Lydia E. Pinkham's Vegetable Compound a trial.

Suits cleaned and pressed.—Miller Bros. Phone 422. 9-26-6t
